

## ***Sandsjögården's Covid-19 Safety Measures***

**In these uncertain times, it is highly important to us that our guests not only feel welcome, but also safe, taken care of with comprehension and correctly informed! The health and wellbeing of both guests and employess are equally important to us. Thus, we are following and constantly monitoring the recommendations and restrictions of the Swedish health authority!**

### **Diligence, strong hygiene rules and distance**

In Sweden personal responsibility is highly expected from everyone. We all must help to limit the spreading of Covid-19 and other infectious diseases. For this reason Sandsjögården implemented the following measures/rules:

Sweden has no mandatory use of face masks for public, yet. The health authorities highly recommend wearing face masks, though. In line with this, we recommend our guests to at least wear a face mask upon their arrival and first contact with staff at Sandsjögården.

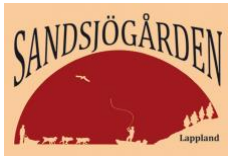

.

We placed hand sanitizer here in the entrance, at the access to the restaurant terrace and in the guest toilets on the first floor of this building. We kindly ask you to sanitize your hands before entering the reception, resp. the dining room from the terrace entrance. Or even better, wash your hands thoroughly with warm water and soap instead.

On our inspection tour through the facility several times a day, we a.o. disinfect contagious-likely spots, e.g. door handles or the card terminal on a regular basis. This is just one of the routines we performed already long before the pandemic.

The Stuga are thoroughly sanitized before handed out to the guest.

After every check-out the stugas are thoroughly cleaned and sanitized prior to the next check-in.

Our SJG team was comprehensively trained on the subjects hygiene and prevention. We regularly check and update our internal rules conjointly to ensure that everyone maintains the same level of knowledge and thus can take on his/her personal responsibility. More, the SJG team also has strict orders to stay away from work as soon as signs of a cold, coughing or influenza make themselves felt, for everyone's safety.

Please keep a distance of at least 1.5 meters at all times. In general, we kindly ask our guests to actively help avoid crowded situations on-site. This includes especially the following restrictions:

- Max. 2 persons at a time at the reception (3 incl. staff)
- Max. 4 persons per table in the dining room
- Max. 2 persons per table on the terrace
- Max. 4 persons at a time on the 1st floor (2x toilet | 2x shower)
- No ordering of drinks directly at the bar

We even keep an eye on how many guests/visitors are on-site at a time and reserve the right to limit the access to Sandsjögården, especially for unannounced guests and daytime visitors, if we see that the number of persons may result in crowded spots within Sandsjögården.

If you have questions, are unsure about something or need help, please do not hesitate to either speak to one of us directly or contact us by sms, WhatsApp or messenger on +46 (076)-103 85 75. We are at your service!

The SJG team kindly asks for your understanding in regard to all adjustments made due to Covid-19. More, we ask for your active support and a little common sense to keep yourself and all of us safe and healthy. But most of all, we wish you a wonderful and relaxing stay at beautiful lake Sandsjön!

Kind regards,

your SJG team
